DID YOU KNOW

If you have experience a frozen water line this winter, you should contact the Town Office to report this occurrence, so we can check our water meter equipment. Frozen water service usually results in a frozen water meter as well. If we are aware that your water lines were froze, we will send staff to check that our meter equipment was not impacted.

Metering accuracy is important to avoid back charges for water usage that was missed during an interruption of the meter equipment functionality.
