# Alberta Economy 2012: Games of Skill and Chance!

The global economy continues to tremble with concerns about sovereign debt in Europe, tepid growth in the US, and even a possible slowdown in the emerging Asian economies. What's in store for 2012? How will the Canadian economy be affected? And what are the likely implications for resource prices? Alberta's economy continues to lead the nation, but how will the challenges of the global economy change the game for the province in the coming year?

Please register & join us on February 9, 2012 for this exciting, FREE luncheon in the Council Chambers at the Town Office.
